

Board of Directors Workshop

I-10 and I-15 Corridor Improvement Projects

October 10, 2013

**Immediately following the Board of Directors Metro Valley Study Session
(Approximately 10:00 a.m. – 12:00 p.m.)**

**Location: San Bernardino Associated Governments
1170 W. 3rd Street, 1st Floor Lobby
San Bernardino, CA 92410**

Studies for the I-10 and I-15 Corridor Improvement Projects' various alternatives have been under development. The I-10 alternatives include the No-Build, adding HOV lanes, and adding Express Lanes. The I-15 alternatives are No-Build and adding Express Lanes. The results of the engineering studies, express lane traffic & revenue studies, express lane financial analysis, equity studies, and public outreach will be presented at the workshop.

While the purpose of the workshop is to obtain Board members' input and address their questions on the information provided, final direction will not be requested. The plan is to provide the information to the three Community Advisory Groups (CAGs) in October; have the CAG members share the information and obtain feedback from their peers and neighborhood groups. In November we will obtain that feedback from the CAG members and provide it to the Board in December and ask for direction at that time on whether Express Lanes are a viable alternative that should be carried forward in the environmental process.
