Presented to SANBAG 6/6/12

**THE 2012 INLAND EMPIRE
ANNUAL SURVEY**

**We would like to thank the following organizations which
generously contributed to this survey:**

**PLATINUM SPONSOR:
San Bernardino Associated Governments**

**SILVER SPONSOR:
California State University, San Bernardino**

**BRONZE SPONSORS:
San Bernardino County
College of Extended Learning, CSUSB**

INTRODUCTION AND METHODS

INTRODUCTION

The Institute of Applied Research (IAR) is pleased to present the results of the **2012 Inland Empire Annual Survey**. This annual survey has been conducted in San Bernardino County for the past fifteen years and has often included data and analysis for Riverside County as well. Unfortunately this year IAR was unable to secure sufficient funding within Riverside County, consequently this year's survey does not include Riverside County.

The purpose of the survey is to provide policy-based research that relates to issues important to the Inland Empire. This Inland Empire Annual Survey provides decision-makers with objective, accurate and current information for:

- ◆ **Evaluating key public and private sector services and activities** (e.g., retail services, health care, education, transportation);
- ◆ **Describing the public's perceptions** of such issues as: quality of life, the state of the local economy, perceptions of the region as a place to live and work, problems and issues facing both counties (e.g., crime, pollution, immigration, traffic congestion, and promotion of economic development);
- ◆ **Providing a regional focus** for the on-going discussion of key local/regional issues; and
- ◆ **Disseminating a coherent picture of San Bernardino (& often Riverside County) residents' views, beliefs, and demographic characteristics** to key decision makers within and outside the county, thus enabling comparisons to other counties.

The Inland Empire Annual Survey also includes (on a space available basis), some *proprietary items* designed to meet specific information needs of agencies / organizations within the region that wish to sponsor the survey.

Apart from the objectives listed above, IAR is committed to promoting regionalism and cooperation. Additionally, it is hoped that the work involved in the Annual Survey and other IAR projects will promote the Inland Empire as a significant region in the state. In this sense, IAR seeks to become a valuable resource in the region for initiating community discourse and helping to inform the public, officials, and citizens.

THE QUESTIONNAIRE

In order to track responses over time and provide the opportunity for longitudinal analysis, the Inland Empire Annual Survey has included a series of baseline questions which have appeared on the survey over the last fifteen years. These questions were designed to elicit residents' perceptions about their quality of life and economic well-being, their views about the pressing issues of the day, and their ratings of public services and agencies. In addition, a number of standard demographic questions have been included for tracking purposes and for cross-tabulation of findings. Tracking questions, of course, provide public agencies and businesses with trend data often needed in policy making and outcome assessments. These questions are also valuable in comparing the Inland Empire with other regions in the state and nation.

In addition to the baseline questions, a number of sponsors also submitted questions for their proprietary use. Finally, the researchers, in consultation with sponsors, added questions concerning current issues which have policy and research implications.

A draft copy of the questionnaire was submitted to the sponsors for their approval and modified where warranted. A Spanish version of the questionnaire was produced, the survey instrument was then pre-tested (in both languages), and some minor changes to the wording and order of some items were made. The questionnaire is attached as Appendix I.

SAMPLING METHODS

Telephone survey respondents were randomly selected from a comprehensive sample frame consisting of all telephone working blocks which contain residential telephone numbers (including cell phone numbers) in San Bernardino County. The numbers were then screened to eliminate business phones, fax machines, and non-working numbers. Finally, in order to ensure that some unlisted phone numbers were included in the sample, the original list was supplemented by using the working number as a seed number from which one other number was generated by adding a constant. To the extent possible, therefore, each resident within the county **with a telephone** (including cell phones) had an equal chance to be included in the survey.

In order to ensure accuracy of findings, 1,063 residents were surveyed from San

Bernardino County for a 95 percent level of confidence and an accuracy of approximately plus/minus 3%.

Since the inception of the survey, SANBAG has requested region-specific analyses within San Bernardino County. The four regions of interest are: **East Valley**, **West Valley**, **Victor Valley**, and **Desert**, with approximately 250 respondents surveyed per region (95% level of confidence and an accuracy of plus/minus 6% per region).

The following table lists San Bernardino County survey respondents' community/city of residence, separated by region.

**Communities and Cities Mentioned by San Bernardino County Respondents,
Broken Down By the Four Designated SB County Study Areas**

East Valley	West Valley	Victor Valley	Desert Region
Big Bear	Chino	Adelanto	Barstow
Bloomington	Chino Hills	Apple Valley	Earp
Colton	Fontana	Hesperia	Hinkley
Cedar Glen	Montclair	Lucerne Valley	Joshua Tree
Crestline	Ontario	Phelan	Landers
Grand Terrace	Rancho Cucamonga	Victorville	Morongo Valley
Highland	Upland	Wrightwood	Needles
Lake Arrowhead			Trona
Loma Linda			Twentynine Palms
Lytle Creek			Yucca Valley
Mentone			
Redlands			
Rialto			
Running Springs			
San Bernardino			
Twin Peaks			
Yucaipa			

Telephone interviews were conducted by the Institute of Applied Research at California State University, San Bernardino using Computer Assisted Telephone Interviewing (CATI) equipment and software. The surveys were conducted between February 17 and March 3, 2012. Calls were made Monday through Friday 9 AM until 9 PM, Saturday 10 AM until 5 PM and Sunday 1 PM until 7 PM.

SAN BERNARDINO COUNTY FINDINGS

INTRODUCTION

Following are the major findings in San Bernardino County from this year's survey. Findings are presented for San Bernardino County as a whole, and we examine significant regional differences within San Bernardino County. Further, perhaps one of the most important contributions of this survey is that it provides an opportunity to engage in longitudinal analysis, and this year we present noteworthy trends over the past 15 years.

Findings are presented by conceptual category (e.g. ratings of the county, commuting, economic evaluations and future prospects, evaluations of selected private and public services, creating livable communities, and confidence in elected officials). A full data display of countywide (weighted) findings is available in Appendix II, and regional breakdowns are shown in Appendix III.

RATINGS OF THE COUNTY

OVERVIEW: Two-thirds of residents rated San Bernardino County as “very good” or “fairly good” place to live. Residents continued to cite “good area/location/scenery” as the most positive aspect of living in the county, and “crime/gang activity” as the most negative. These trends have been fairly consistent over the past 15 years. Fear of crime is up slightly among San Bernardino County residents, with residents from East Valley and Victor Valley being more fearful than those from the West Valley or Desert region.

When respondents were asked to rate the county as a place to live (Question 3), the majority of residents (approximately two-thirds) rated San Bernardino County as a “very good” or “fairly good” place to live (a figure which has remained relatively stable over the past 15 years). In 2002 the number peaked to 74%, and there was a slight decline between 2003 and 2008. Last year we noted that ratings were up in all four regions, but this year they are back to 2010 levels in 3 of the 4 regions. The exception to that pattern is the West Valley, which continues to enjoy the highest rating of all four regions, and which had a slightly increased rating this year.

**Table 1. % Respondents Indicating Their County is a
"Very Good" or "Fairly Good" Place to Live**

	East Valley %	West Valley %	Victor Valley %	Desert %	SB County %
1997 Survey	50	76	67	63	63
1998 Survey	58	76	66	69	67
1999 Survey	59	78	71	64	69
2000 Survey	55	77	73	63	67
2001 Survey	65	77	77	69	72

2010 Survey	59	73	61	61	65
2011 Survey	62	78	64	68	69
2012 Survey	56	80	58	62	67

To help determine specifically what respondents like or dislike about living in San Bernardino County, they were asked to indicate the one BEST and one MOST NEGATIVE thing about living in the county (Questions 4 and 5). Over the years San Bernardino County residents consistently named “general area/location/scenery” as the most positive aspect of living in the county (Tables 2 and 3), followed by “climate/weather,” “affordable housing,” and “not crowded.” These findings hold true for the 2012 report, not only for the county as a whole but also for the individual regions.

Table 2. Positive Factors Mentioned About the County

	2005 SB County %	2006 SB County %	2007/08 SB County %	2008/09 SB County %	2010 SB County %	2011 SB County %	2012 SB County %
Good area, location, scenery	29	33	34	36	37	33	36
Good Climate, weather	14	15	11	17	13	16	16
Affordable housing	10	11	11	5	9	8	8
Not crowded	8	8	8	8	7	7	7

Table 3. Positive Factors Mentioned About the County (Regional Breakdown)

	East Valley %	West Valley %	Victor Valley %	Desert %
Good area, location, scenery	45	34	28	31
Good climate, weather	16	11	24	26
Affordable housing	8	9	8	4
Not crowded	4	7	9	13

Regarding the most *negative* factor about living in San Bernardino County, crime/gang activity has always been number one on the list, and this year is no different. Further, the number of people mentioning crime/gang activity as the predominant negative factor of the county has increased from 22% to 27%. Of course the obvious question is: is this perception grounded in reality or merely a reflection of what residents in the county see on TV and read in the newspapers? But as we have addressed in previous reports, perceptions have a life of their own, and therefore have an impact on various aspects of every-day life in the county. For example, concerns over crime may affect entrepreneurs' willingness to open new businesses in the area, and concerned parents might move out of the area to provide a safer environment for their children.

Over the past few years the number of residents who report that "lack of job

opportunities” is the most negative aspect of living in the county. This is no surprise given the recent recession and rising unemployment rate in San Bernardino County since 2009.

Table 4. Negative Factors Mentioned About the County

	2005 SB County %	2006 SB County %	2007/ 08 SB County %	2008/09 SB County %	2010 SB County %	2011 SB County %	2012 SB County %
Crime, gang activity	24	33	24	31	26	22	27
Lack of job opportunities	3	1	3	5	7	8	7
Traffic	12	12	10	7	6	7	6
Smog, air pollution	10	8	9	9	8	6	5

In terms of regional differences, there was an increase in the number of residents in all four regions who cited “crime/gang activity” at the most negative factor, with East Valley being number one on the list.

Table 5. % Mentioning “Crime/Gang Activity” as the Most Negative Factor About Living in the County

	East Valley %	West Valley %	Victor Valley %	Desert %	SB County %
1997 Survey	39	25	20	9	26
1998 Survey	33	22	20	9	25
1999 Survey	34	19	20	12	25
2000 Survey	32	16	13	15	22

2010 Survey	37	18	32	11	26
2011 Survey	30	14	25	10	22
2012 Survey	37	19	31	10	27

Because “crime/gang activity” has always been cited by respondents as the number one most negative factor of living in the county, respondents were also asked: “In general, how fearful are you that you will be the victim of a serious crime, such as a violent or costly crime?” (Question 9). The answer to this question has fluctuated somewhat over the past 15 years, but the critical point reflected in Table 6 below is that over all that time at least a third of respondents indicated that they are “very fearful” or “somewhat fearful” of being a victim of a serious crime.

Residents from the East Valley and Victor Valley have typically been more fearful of being the victim of a serious or costly crime than residents from the other two regions, and the same pattern holds this year.

Table 6. % “Very Fearful” or “Somewhat Fearful” of Being the Victim of a Serious Crime

	East Valley %	West Valley %	Victor Valley %	Desert %	SB County %
1997 Survey	46	41	40	36	43
1998 Survey	48	38	33	20	40
1999 Survey	38	36	37	23	36
2000 Survey	48	39	33	24	41
2001 Survey	35	32	25	21	32
2002 Survey	35		34	26	35
2003 Survey	44	38	29	29	39

2007 / 08 Survey	44	31	32	29	36
2008 / 09 Survey	41	28	45	28	35
2010 Survey	37	35	38	29	36
2011 Survey	40	26	40	27	34
2012 Survey	44	29	43	32	37

Since 2008/2009, we have seen an increase in the number of residents who cite “lack of job opportunities” as the most negative factor of living in the County. This is particularly true in the East Valley and Victor Valley. The concern among residents in the Desert region increased slightly this year.

Table 7. % Mentioning “Lack of Job Opportunities” as the Most Negative Factor About Living in the County

	East Valley %	West Valley %	Victor Valley %	Desert %	SB County %
2003 Survey	4	3	4	6	4
2004 Survey	2	3	4	9	3
2005 Survey	2	2	4	5	3
2006 Survey	< .5	2	3	2	1
2007 / 08 Survey	3	3	3	4	3
2008 / 09 Survey	5	3	3	5	5
2010 Survey	7	3	15	7	7
2011 Survey	9	6	10	6	8
2012 Survey	9	5	9	8	7

It is noteworthy that the number of residents who cited “smog” as a negative factor gradually increased from 9% in 1997 to 15% in 2001, and then began to decrease, down to only 5% this year. Except for 1999, this is at an all-time low, but it is not clear as to whether the smog in the area has improved, or if there are other more pressing issues on people’s minds (such as the economy).

Not surprisingly (given the proximity to L.A.) West Valley had the highest percentage of respondents who cited smog as a negative factor, and relatively few Victor Valley and Desert Valley respondents mentioned it.

Table 8. % Mentioning Smog as a Negative Factor

	East Valley %	West Valley %	Victor Valley %	Desert %	SB County %
1997 Survey	14	19	5	2	9
1998 Survey	11	15	7	3	11
1999 Survey	0	2	0	0	1

2008 / 09 Survey	10	12	2	2	9
2010 Survey	8	11	2	2	8
2011 Survey	7	6	3	2	6
2012 Survey	3	9	1	2	5

Since the inception of the San Bernardino County Survey, traffic has consistently been listed among the top three negative factors about living in the county. Ratings were 2% in 1997, and rose to a peak of 14% in 2004. Since then there has been a decline, down to 6% this year. Does this mean that traffic has actually improved? Not necessarily, especially given all of the freeway construction in San Bernardino County which, at the moment, is a cause of angst for many drivers. The decline may simply reflect respondents' increased concern about jobs and the economy rather than traffic. West Valley residents cited it more often than residents in the other regions.

Table 9. % Mentioning Traffic as a Negative Factor

	East Valley %	West Valley %	Victor Valley %	Desert %	SB County %
1997 Survey	N/A	N/A	N/A	N/A	2

2011 Survey	5	10	8	3	7
2012 Survey	5	8	4	4	6

COMMUTING

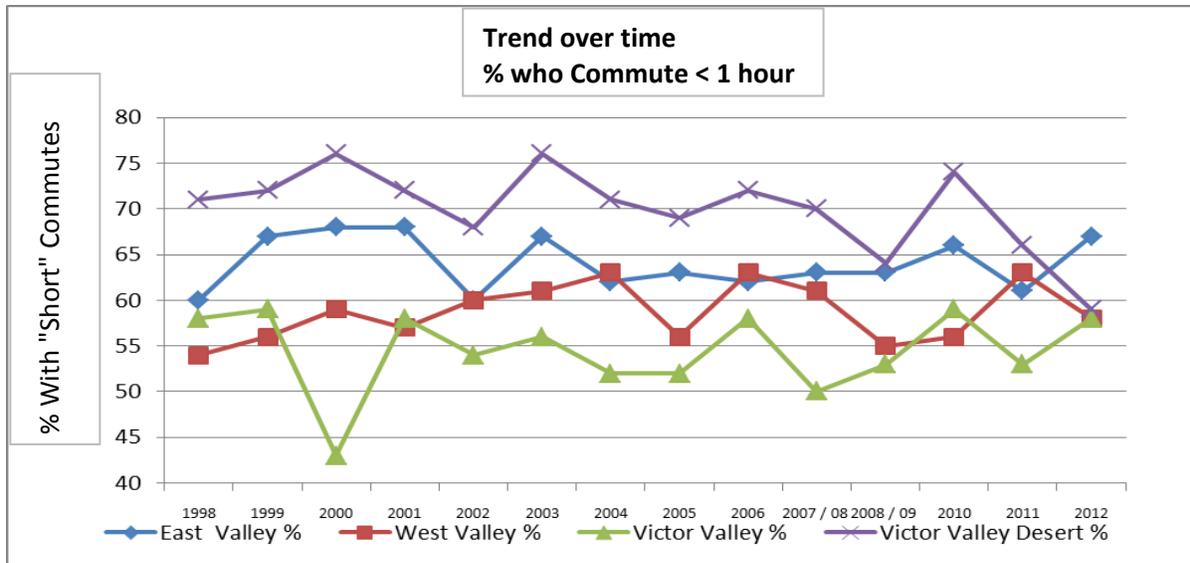

***OVERVIEW:** Since 1997, most respondents have reported that their commute time is less than one hour, and the median commute time has remained fairly consistent. Most report that they work in San Bernardino County. West Valley residents are more likely to work outside the county, and their commuting destination is typically Los Angeles County.*

For the third year in a row, 61% of residents reported a round-trip commute time of less than one hour (Question 25). There was a slight decline in the number of residents from the West Valley and the Desert region reporting short commutes (that is, commutes of less than one hour to and from work each day). In other words, when compared with the 2011 survey, this year more residents from these two regions have longer commutes. Typically Desert respondents have had the shortest commutes, but this year that “status” goes to East Valley respondents.

Over the past 15 years, the median commute time has fluctuated, with a low of 36.0 minutes reported in 2004 to a high of 40.2 minutes in 2007/2008. Overall, the median commute time of San Bernardino County residents (38.8 minutes) has dropped only slightly from last year’s 39.7 minutes.

Table 10. % Total Round-Trip Commuting Times of Less Than 1 Hour and Median Commute Time

	East Valley %	West Valley %	Victor Valley %	Desert %	SB County %	Median Commute Time
1998 Survey	60	54	58	71	58	38.2 min
1999 Survey	67	56	59	72	62	37.3 min
2000 Survey	68	59	43	76	61	37.1 min
2001 Survey	68	57	58	72	61	38.5 min
2002 Survey	60		54	68	60	36.6 min
2003 Survey	67	61	56	76	63	37.4 min
2004 Survey	62	63	52	71	62	36.0 min
2005 Survey	63	56	52	69	59	38.2 min
2006 Survey	62	63	58	72	62	38.4 min
2007 / 08 Survey	63	61	50	70	61	40.2 min
2008 / 09 Survey	63	55	53	64	58	40.0 min
2010 Survey	66	56	59	74	61	39.1 min
2011 Survey	61	63	53	66	61	39.7 min
2012 Survey	67	58	58	59	61	38.8 min

Commuting destination (Question 27) has remained fairly consistent over the years as well, with most residents (7 in 10) working within San Bernardino County. In 2010, there was an increase in the number of residents who reported traveling to work outside San Bernardino County. In 2011 and this year's survey, the figures have returned to their earlier patterns.

Table 11. San Bernardino County Respondents' Commuting Destinations

	Work Destination (County)			
	San Bernardino County	Riverside County	Orange County	Los Angeles County
1999 Survey	73	6	3	15
2000 Survey	70	7	4	15
2001 Survey	69	8	4	16
2002 Survey	67	9	6	16
2003 Survey	69	7	5	16
2004 Survey	71	5	5	16
2005 Survey	72	5	4	17
2006 Survey	71	7	4	13
2007 / 08 Survey	70	7	4	15
2008 / 09 Survey	71	6	3	16
2010 Survey	64	6	6	20
2011 Survey	71	7	3	17
2012 Survey	70	7	5	17

* NOTE: A small percentage of respondents reported working in areas not listed in the table.

Regionally, a substantially great number of West Valley residents reported working outside the county than residents in the other three regions, and their commuting destination is typically Los Angeles County. This has been the trend over the past 14 years (this question was not asked on the 1997 survey). As we've argued in past years, one of the best ways to solve the problem of traffic congestion is to create enough economic growth in the area so that people don't have to commute to other areas for work. We still believe that this is imperative for the region...but simply creating jobs is not necessarily going to solve the entire problem. As we note later in this report, many respondents are willing to deal with a long commute if it ensures that they can live in a larger home outside dense urban areas.

ECONOMIC EVALUATIONS AND FUTURE PROSPECTS

OVERVIEW: *The number of residents who rated the County’s economy as “excellent” or “good” remained low this year. Fewer respondents reported that they are better off financially than they were a year ago, and more respondents said they think they will be worse off next year.*

The next few questions addressed respondents’ perceptions of the economic well-being of San Bernardino County and their own financial condition. First, respondents were asked to rate the economy in San Bernardino County (Question 8). In 2008/2009 there was a sharp decline in the number of respondents who rated the economy as “excellent” or “good” (from 40% in 2007/2008 down to 12% in 2008/2009), and the numbers dropped even lower to only 9% in 2010. Last year we noted that the numbers were up a bit to 14%, possibly pointing to small signs of recovery. This year we see little change at 13%. Residents from Victor Valley rated it the lowest (6%), followed by East Valley and Desert region (8% each). The numbers in these three regions are down from last year’s ratings, but still within the margin of error.

Table 14. % Rating the County's Economy as "Excellent" or "Good"

	East Valley %	West Valley %	Victor Valley %	Desert %	SB County %
1997 Survey	20	46	14	24	28
1998 Survey	39	56	33	39	45

2010 Survey	8	11	7	11	9
2011 Survey	12	20	10	11	14
2012 Survey	8	21	6	8	13

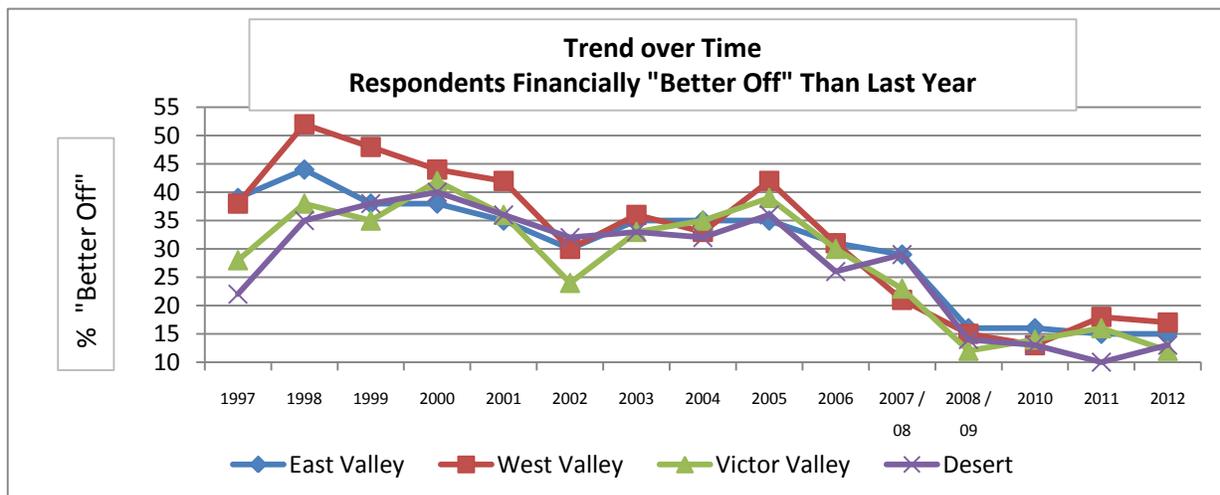

Personalizing the issue, respondents were also asked: "In comparison to a year ago, would you say that you and your family are financially better off, worse off or the same?"

(Question 6). Again, these numbers remain low--only 15% of respondents said they are better off financially compared to a year ago. Ratings from Victor Valley residents showed the largest decline, down to 12% “better off” this year from 16% last year.

Further, respondents were asked “now looking ahead, do you think that a year from now you and your family will be better off, worse off, or just about the same as you are now?” (Question 7). Most respondents were clearly not optimistic about their financial future. Only 33% of them said they think they will be better off financially in the coming year (compared to 39% last year). In addition, 19% of them think they will be *worse off* financially in a year (compared to 15% last year). These findings suggest that many respondents are currently reeling from the impact of the recession and may be losing confidence in the “California dream” for the future.

Residents of the Desert region were the least optimistic about their future financial situation.

Table 16. Now looking ahead, do you think that a year from now you and your family will be better off, worse off, or just about the same as you are now?

*NOTE: figures do not add up to 100% due to rounding differences

EVALUATIONS OF SELECTED PRIVATE AND PUBLIC SERVICES

OVERVIEW: The library (which was added to this year’s survey) was rated the highest among all other services. Ratings of police/sheriff remained relatively high, while street/road maintenance remains at the bottom of the list. These ratings have remained consistent over the years. Respondents considered a clean environment, safety and security, and the ability to walk or bike safely as the most important attributes about their community, but satisfaction with those and other community attributes was not overly high.

Views of the County as a Whole

Since 1999, respondents have been asked to rate a variety of public and private services (Questions 14 to 20). The following table details the last 13 years of data regarding the percentage of respondents who indicate that the services are “excellent” or “good.” Ratings of libraries (a category new on this year’s survey) were the highest of all services, with 73% of respondents rating libraries as “excellent” or “good.” As in previous years, respondents gave high ratings to police/sheriff (68%), shopping (61%), and parks/recreation (61%), and the lowest ratings to street/road maintenance (31%), transportation (40%), public schools (42%), and entertainment (43%). These ratings have remained fairly consistent over the past 13 years.

Table 17. % of Respondents Rating Services as “Excellent” or “Good”

	Shop -ping	Police /Sheriff	Parks /Rec	Public Schools	Enter -tain	Transpor -tation	Street/ Road Maint	Library
1999	68	70	60	46	49	N/A	38	Data Not Available
2000	63	64	58	41	43	36	33	
2001	68	66	58	45	46	42	34	
2002	70	71	58	51	49	40	39	
2003	66	69	56	46	49	38	35

2011	60	68	61	47	46	40	33	
2012	61	68	61	42	43	40	31	

Table 18 below shows the regional breakdown of ratings in services, and compares these current ratings with those from 2011. As in previous years, West Valley residents seem to be much more satisfied with all services than residents in the other three regions. Last year,

respondents' rating of public schools either went up or stayed the same across the regions. This year, however, it has dropped in all four regions, perhaps due to the budget cuts so prominently mentioned in the media.

Table 18. % Rating Local Services as “Good” or “Excellent”

	East Valley %		West Valley %		Victor Valley %		Desert %	
	2011	2012	2011	2012	2011	2012	2011	2012

In 2010, San Bernardino County government officials began a process of eliciting residents' views regarding the County's strengths, weaknesses, and potential through its well-publicized Vision Project. To supplement this effort, this year the County of San Bernardino submitted five questions (SBCO1 – SBCO5) to the Inland Empire Annual Survey asking the respondent whether various aspects of life in San Bernardino County (e.g. employment opportunities, the openness and honesty of local government, public safety, the overall image of the county, and the quality of schools) have “gotten better”, “gotten worse”, or “stayed the same” over the past 12 months. Following are the results:

Table19. During the past 12 months do you think employment opportunities in San Bernardino have gotten better, worse, or stayed the same?

	East Valley %	West Valley %	Victor Valley %	Desert %	SB County %
Gotten Better	14.1	14.3	7.3	6.3	12.5
Gotten Worse	35.5	39.6	45.2	47.3	39.7
Stayed the Same	50.4	46.1	47.5	46.4	47.9

Table 20. During the Past 12 Months do you think the Openness and Honesty of Local Government has gotten better, worse, or stayed the same?

	East Valley %	West Valley %	Victor Valley %	Desert %	SB County %
Gotten Better	6.8	10.7	3.1	3.8	7.5
Gotten Worse	27.5	24.4	25.3	26.7	25.8
Stayed the Same	65.7	64.9	71.6	69.5	66.7

Table 21. During the Past 12 Months do you think Public Safety in San Bernardino County has gotten better, worse, or stayed the same?

	East Valley %	West Valley %	Victor Valley %	Desert %	SB County %
Gotten Better	15.6	16.3	12.4	10.6	15.0
Gotten Worse	20.2	14.0	22.8	16.9	17.9
Stayed the Same	64.2	69.6	64.8	72.5	67.1

Table 22. During the Past 12 Months do you think the Overall Image of San Bernardino County has gotten better, worse, or stayed the same?

	East Valley %	West Valley %	Victor Valley %	Desert %	SB County %
Gotten Better	15.0	21.4	10.6	10.2	16.5
Gotten Worse	34.6	21.0	25.3	25.0	26.7
Stayed the Same	50.4	57.6	64.1	64.8	56.8

Table 23. During the Past 12 Months do you think Public Schools in San Bernardino County have gotten better, worse, or stayed the same?

	East Valley %	West Valley %	Victor Valley %	Desert %	SB County %
Gotten Better	10.6	12.5	10.9	9.7	11.4
Gotten Worse	42.2	37.5	40.6	38.2	39.7
Stayed the Same	47.2	50.0	48.5	52.2	48.9

In order to summarize the results in the tables above and to enable tracking over time when the survey is conducted in future years, a diffusion index was employed. A diffusion index is a measure which quantifies the change from one time period to another so as to allow for longitudinal analysis. It is calculated by taking the percentage of respondents indicating that things have gotten *better* and adding that figure to one-half times the percentage of people indicating that things have *stayed the same* over the past 12 months. In general, figure above 50 indicates that people have seen an improvement in the County characteristic at question, and a figure below 50 indicates that overall people perceive things as getting worse rather than better when last year is compared with this year.

Following are the diffusion indices, both for the county as a whole and for each region separately. Unfortunately most of the indices are below 50, indicating that San Bernardino County residents perceive that things are getting worse rather than better, particularly when it comes to public schools and employment opportunities. Even services rated relatively high such as public safety are perceived to have gotten slightly worse over time.

Table 24. Diffusion Indices

	East Valley %	West Valley %	Victor Valley %	Desert %	SB County %
Employment opportunities	39.30	37.35	31.05	29.50	36.45
Openness and honesty of local government	39.65	43.15	38.90	38.55	40.85
Public safety	47.70	51.10	44.80	46.85	48.55
Overall image of the county	40.20	50.20	42.65	42.60	44.90
Public schools	34.20	37.50	35.15	35.8	35.85

A few region-specific differences are evident in the above table. Residents from Victor Valley and the Desert were more pessimistic about employment opportunities compared with residents from the other two regions. Overall, West Valley respondents did not see a decline in public safety or the overall image of the county, as did residents from other regions. It will be interesting to track these figures over time.

The reader is encouraged to view the detailed percentages found in Appendix II and III.

Views of the Respondent’s Community

In addition to respondents’ rating of various services, SANBAG submitted some questions regarding the importance of and satisfaction with various community attributes and services. Respondents were asked to think about *their particular community* (rather than the county as a whole) when answering these questions. The first series of questions (SANBAG1a – 9a) asked the respondent to rate how *important* each attribute/service is in their community. Respondents who rated an attribute/service as “very important” were then asked to state how *satisfied* they are with that particular attribute/service in their community (SANBAG 1b – 9b). The table below shows the percentage of residents who rated each attribute/service as “very important” and the percent what indicated that they are satisfied with the attribute/service.

Table 25. Importance and Satisfaction with Attributes/Services

	% “very important”	% “satisfied”*
Clean Environment	82	57
Safe and Secure	81	59
Ability to Walk or Bike Safely	77	58
Good Schools	75	50
Good Air Quality	71	59
Availability of Good Jobs	70	20
Affordable Housing	60	51
Good Shopping	47	61
Entertainment and Recreational Opportunities	34	54

* Satisfaction question only asked if respondent rated attribute/service as “very important”

If one views this as a report card, then clearly the County is, at this point, getting somewhat low grades in all areas. We understand that County officials are working hard on these areas, and in future years it will be especially important to monitor their progress.

There are some striking differences between regions. Not surprisingly, residents from Victor Valley and the Desert region expressed far more satisfaction with their air quality than those from the East or West Valley regions. This coincides with the finding that residents from the East and West Valley were more likely to cite “smog” as a negative factor of living in the county.

In addition, West Valley respondents appear to be much more satisfied with the safety of their particular community, the availability of good shopping, and the entertainment and recreational opportunities available within their community than those from the other three regions. Indeed, there were very few specific negative comments from West Valley respondents regarding shopping and entertainment/recreational opportunities, however there were many comments about those community characteristics from residents of the other three areas. Some selected comments included:

East Valley:

- Have to travel outside of the city to get good recreational opportunities
- Have to go to Redlands to get anything good
- Parks aren't safe to hang out at
- There's no entertainment other than movies...I have to go to Ontario
- There's a lack of movies, parks, and centers for the kids

Victor Valley:

- Cutting programs from the parks for the kids. There's not enough attention paid to activities for children. They will go to gangs!
- The area doesn't really have anything other than bars
- There's nothing to do, especially for kids. The parks aren't safe.
- I leave the community to shop
- I'm 75 and there's not much for people our age. Crime is out of control. I won't go anywhere after dark
- Regional parks have been closed and not repaired
- There's nothing in Apple Valley
- There isn't enough to do up here and nothing for the young or the elderly. They have to go down the hill to do anything.

Desert:

- There's nothing for our youth to do. They even closed down the bowling alleys. Kids get bored and end up going out and getting in trouble.

- No safe parks
- No recreation and entertainment
- The only place to shop is Wal-Mart. For entertainment there is only one movie theatre which is inconveniently located.
- There's nothing in the city but one park
- In Barstow it's minimal, so crime rates rise

Finally, respondents in all four regions seemed to be dissatisfied with the availability of good jobs in their community, which is not surprising given the state of the economy and the effect it has had on San Bernardino County residents.

Table 26. % of Respondents who said Attribute/Service is “Very Important” in their Community

	East Valley %	West Valley %	Victor Valley %	Desert %	SB County %
Clean Environment	78	87	80	72	82

Good Shopping	52	82	38	35	61
Entertainment and Recreational Opportunities	44	74	32	28	54

CREATING LIVABLE COMMUNITIES: TRANSIT ORIENTED DEVELOPMENT OR NOT?

OVERVIEW: Overall, most respondents would prefer to live in a more suburban area with larger lots, and where they would have to drive to shopping, recreation or businesses. Commuters, however, are more likely to prefer smaller lots with a shorter commute to work rather than larger lots which would require a longer commute. Respondents would prefer the government use transportation funds to maintain the roads we currently have rather than building, improving and expanding roads, railways, bus service, bike lanes and freeways to reduce traffic congestion.

This year, SANBAG submitted some new questions regarding the type of community San Bernardino County residents would prefer to live in. First, respondents were asked to imagine that they were moving to another community. They were read two descriptions of different types of communities, and asked which community they would prefer to live in (SANBAG 10). The first type of community (Option A) was described as a “community which as a mix of homes on smaller lots, townhouses, and apartments, with shopping, recreation and businesses that are easy

to walk to.” Option B was described as a “community which has homes on larger lots, and where you drive to shopping, recreation and businesses.” As seen in the table below, respondents prefer to live in a more suburban area with larger lots where they have to drive to shopping, recreation and businesses. This is consistent across all four regions.

Table 28. Preferred Type of Community Based on Lot Size and Proximity to Services/Business

	East Valley %	West Valley %	Victor Valley %	Desert %	SB County %
Option A (“walkable community”)	46	34	30	34	37
Option B	50	62	68	63	59
No preference	5	4	3	3	4

In earlier reports we have commented on the difficulty of changing the automobile culture to one that values public transportation. In a similar fashion, the above figures suggest that the California dream of a house on a large lot (with a white picket fence and kids playing in the front yard) is still alive and well.

The reader should note that these results are dramatically different from a recent survey of Southern California voters conducted by FM3. In that study, 64% preferred Option A and 34% preferred Option B. There are various reasons why our results might differ from that study. One reason (probably the major one) is that our respondents all reside in San Bernardino County whereas FM3’s respondents were drawn from six counties in Southern California. It is possible that San Bernardino County residents moved to the county or continue to live in the county because of a lifestyle which includes relatively inexpensive housing prices and relatively large lot sizes. The other reason which occurred to us is that there may have been a significant difference between the views of registered voters (such as those in the FM3 study) and non-registered voters who were included in our sample. Our analysis shows that there is only a slight difference based on voter registration, therefore our findings hold.

Yet there are still subgroups who might find the TOD concept appealing. Those who prefer Option A (“walkable communities with a mix of homes on smaller lots, townhouses, and

apartments”) tend to be younger, lower income, unmarried people, and people with no children. More specifically:

- 54% of people 18 – 24 years old preferred Option A, as opposed to about a third of people in age groups from 25 – 74 years of age preferring Option A
- Nearly half of respondents with incomes less than \$35,000 preferred Option A, vs. a third or less of respondents with higher incomes who preferred Option A
- 29% of married people prefer Option A, vs. nearly half of those who are single, divorced, or widowed preferring Option A
- 38% of people with no children prefer Option A, as opposed to 31% of people with at least one child preferring Option A

Next, the concept of commute time was entered into the equation. Respondents who indicated that they currently commute to work (358 people) were read descriptions of a different set of options, one of which (Option C) was described as a community where the homes are built on *smaller* lots and the commute time to work would be *20 minutes or less*, and the other (Option D) was described as a community where the homes are built on *larger* lots and the commute time to work would be *40 minutes or more*. Half of commuting respondents said they would prefer a smaller lot with a shorter commute time, whereas 44% prefer a larger lot even if that means commuting longer. Regionally, more East Valley residents would prefer to live on smaller lots with shorter commute times than residents from the other three regions.

Table 29. Preferences Regarding Lot Size and Commute Time

	East Valley %	West Valley %	Victor Valley %	Desert %	SB County %
Option C (smaller lot, shorter commute)	61	42	49	50	50
Option D (larger lot, longer commute)	33	50	47	45	44
No preference	6	7	4	5	6
I prefer living in an apartment/townhouse	0	< 1	0	0	<1

After careful inspection of the data, there was no particular profile which would explain people’s preferences – with one notable exception. Specifically, 61% of the commuters who already have a short commute (20 minutes or less) would prefer having a smaller lot in order to maintain that short commute, whereas 46% of those with longer commutes would wish to live in a smaller house if it could ease that commute somewhat. Of course, that is from the perspective of the person doing the driving...it is possible that their significant other (who might or might not be in the workforce) would sway the decision towards the larger house.

The final SANBAG question (SANBAG12) dealt with tradeoffs regarding how limited amounts of transportation funds should be allocated: “Given that there is a limited amount of money in the budget to fund transportation, is it more important for the government to make transportation improvements, such as more commuter rail service, express buses, bike lanes, or expanding freeways to help reduce congestion, OR should they spend money on maintaining the local roads we already have?” Most respondents said they would prefer that the government use the money to maintain the local roads that already exist rather than making improvements that will reduce traffic congestion. This is consistent across all four regions, particularly in the Victor Valley and Desert region (where there is less traffic congestion). It is also consistent with the extremely low ratings of street/road maintenance discussed earlier in this report.

Table 30. Preferred Use of Transportation Funds

	East Valley %	West Valley %	Victor Valley %	Desert %	SB County %
Improvements to reduce traffic	31	39	34	24	35
Maintaining the local roads we have	48	49	50	63	50
Both	21	11	16	13	15

CONFIDENCE IN ELECTED OFFICIALS

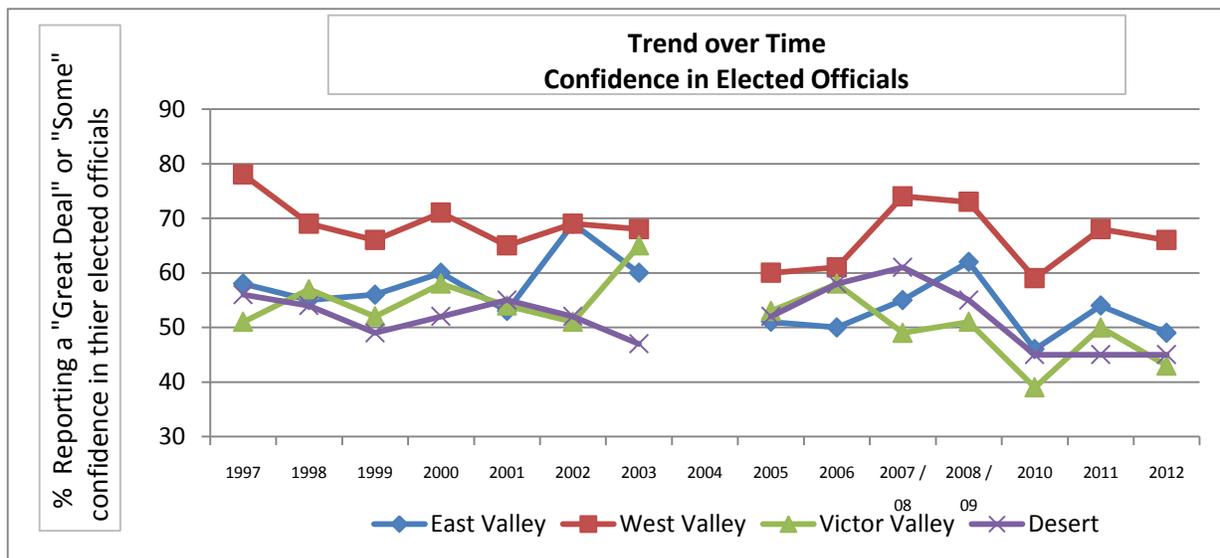

OVERVIEW: Confidence in elected officials is down in three of the four regions and in the county as a whole.

Over the past 15 years, San Bernardino County residents reporting either a “great deal” or “some” confidence in their elected officials (Question 28) has ranged from a high of 66% in 2002 to a low of 51% in 2010. This year it is at 55% (down from 58% last year). West Valley residents

have consistently had the most confidence in their elected officials compared to the other three regions. This year, confidence is down in all regions except the Desert which remained the same as last year.

Table 31. % Reporting a "Great Deal" or "Some" Confidence in Their Elected Officials

	East Valley %	West Valley %	Victor Valley %	Desert %	SB County %
1997 Survey	58	78	51	56	63
1998 Survey	55	69	57	54	61
1999 Survey	56	66	52	49	59
2000 Survey	60	71	58	52	64
2001 Survey	53	65	54	55	59
2002 Survey	69		51	52	66
2003 Survey	60	68	65	47	63
2004/05 Survey	Question was not asked on this year's survey				
2005 Survey	51	60	53	52	55
2006 Survey	50	61	58	58	56
2007/08 Survey	55	74	49	61	63
2008/09 Survey	62	73	51	55	65
2010 Survey	46	59	39	45	51
2011 Survey	54	68	50	45	58
2012 Survey	49	66	43	45	55

If we look *only* at those who said they have a “great deal” of confidence in their elected officials, the figures are a bit more dramatic. Only 8% of residents’ county-wide said they have a great deal of confidence in their elected officials, with residents from Victor Valley and Desert regions having the least confidence at only 5% each.

Table 32. % Reporting a "Great Deal" Of Confidence in Their Elected Officials

	East Valley %	West Valley %	Victor Valley %	Desert %	SB County %
2005 Survey	9	10	6	15	9

2008/09 Survey	10	18	7	8	13
2010 Survey	7	9	6	5	7
2011 Survey	7	14	5	8	10
2012 Survey	8	10	5	5	8

FINAL NOTE

In this report we have presented San Bernardino County and region-specific findings from the 2012 Inland Empire Annual Survey. The reader is encouraged to review the full data displays (attached) for the complete listing of survey results. This report will be added to previous Annual Surveys on our website (<http://iar.csusb.edu>) for those who wish to engage in more detailed comparative analysis with previous years' reports.

For questions about the Inland Empire Annual Survey (or additional analysis tailored to a particular organization or agency), please contact the authors: Shel Bockman (909-537-5733), Barbara Sirotnik (909-537-5729), or Christen Ruiz (909-537-5776).

Appendix I

Questionnaire

INLAND EMPIRE ANNUAL SURVEY, 2012

SHELLO Hello, I am calling from the Institute of Applied Research at Cal State San Bernardino. We're conducting a scientific study of quality of life issues in San Bernardino County and we need the input of the head of the household or his or her partner. Have I reached [READ PHONE # FROM SCREEN]?

1. CONTINUE
2. DISPOSITION SCREEN

SHELLO2 (used only to complete a survey already started)

Have I reached [READ PHONE NUMBER]? Hello, this is _____, calling from the Institute of Applied Research at CSU San Bernardino. Recently, we started an interview with the [MALE/FEMALE] head of the household and I'm calling back to complete that interview. Is that person available?

SPAN INTERVIEWER: PLEASE CODE WHICH LANGUAGE THE INTERVIEW WILL BE CONDUCTED IN:

1. ENGLISH
2. SPANISH

SHEAD Are you that person?

1. Yes [SKIP TO INTRO]
2. No [CONTINUE]
8. DON'T KNOW/NO RESPONSE
9. REFUSED

SHEAD2 Is the head of the household or his or her partner at home?

1. Yes [SKIP TO INTRO]
2. No [CONTINUE]
8. DON'T KNOW/NO RESPONSE
9. REFUSED

CALLBK Is there a better time I could call back to reach the head of the household?

1. Yes [SKIP TO APPT]
2. No [ENDQUEST]

INTRO This survey takes about 10 minutes to complete, and your answers may be used by county officials to make policy decisions. Your identity and your responses will remain completely confidential, and of course, you are free to decline to answer any particular survey question.

I should also mention that this call may be monitored by my supervisor for quality control purposes only. Is it alright to ask you these questions now?

1. Yes [CONTINUE]
2. No [SKIP TO APPT]

AGEQAL First, I'd like to verify that you are at least 18 years of age.

1. Yes [SKIP TO BEGIN]
2. No [SKIP TO QSORRY]

QSORRY I'm sorry, but currently we are interviewing people 18 years of age and older. Thank you for your time. [ENDQUEST]

APPT Is it possible to make an appointment to ask you the survey questions at a more convenient time?

1. Yes (SPECIFY) _____
2. No [ENDQUEST]

BEGIN I'd like to begin by asking you some general questions.

[INTERVIEWERS: PRESS ANY KEY TO CONTINUE]

COUNTY First, what county do you live in?

1. San Bernardino County [SKIP TO B1b]
2. Other county [QSORRY2]

QSORRY2 I'm sorry, but we are only surveying people from San Bernardino County at this time. Thank you for your cooperation.

B1b. What city do you live in?

- | | | |

1. Gotten better,
2. Gotten worse, or
3. Remained the same

8. DON'T KNOW
9. REFUSED

SANBAG QUESTIONS

Now I'd like you to think about your particular community rather than the county as a whole. I'm going to read you a list of community features and I want you to tell me how important they are to you. Let's start with schools.

SANBAG1a: Would you say it is very important, important, or NOT important to you that your community has good schools?

1. VERY IMPORTANT
2. IMPORTANT
3. NOT IMPORTANT
8. DON'T KNOW
9. REFUSED

SANBAG2a: How important is it to have good shopping available in your community? Again, use the scale of very important, important, or not important.

1. VERY IMPORTANT
2. IMPORTANT
3. NOT IMPORTANT
8. DON'T KNOW
9. REFUSED

SANBAG3a: How about entertainment and recreational opportunities in your community?

1. VERY IMPORTANT
2. IMPORTANT
3. NOT IMPORTANT
8. DON'T KNOW
9. REFUSED

SANBAG4a: How important is it to you that your community has a clean environment without much trash or graffiti?

1. VERY IMPORTANT
2. IMPORTANT
3. NOT IMPORTANT
8. DON'T KNOW
9. REFUSED

SANBAG5a: Having good air quality in your community?

1. VERY IMPORTANT
2. IMPORTANT
3. NOT IMPORTANT
8. DON'T KNOW
9. REFUSED

SANBAG6a: That you live in a safe and secure community?

1. VERY IMPORTANT
2. IMPORTANT
3. NOT IMPORTANT
8. DON'T KNOW
9. REFUSED

SANBAG7a: How important is it to you that your community has good affordable housing?

1. VERY IMPORTANT
2. IMPORTANT
3. NOT IMPORTANT
8. DON'T KNOW
9. REFUSED

SANBAG8a: That your community has good jobs available?

1. VERY IMPORTANT
2. IMPORTANT
3. NOT IMPORTANT
8. DON'T KNOW
9. REFUSED

SANBAG9a: And finally, how important is it to you to live in a community where you have the ability to go where you want safely by walking or biking?

1. VERY IMPORTANT
2. IMPORTANT
3. NOT IMPORTANT
8. DON'T KNOW
9. REFUSED

NOTE: THE “B” PARTS THAT FOLLOW ARE ONLY ASKED IF THE RESPONDENT INDICATED THAT THE CHARACTERISTIC IS VERY IMPORTANT TO THEM.

TRANS “You just told me the community features that are very important to you. I’m going to read you that list again and I want to know whether you are satisfied with those features. First, are you satisfied with

SANBAG1b: schools?

1. SATISFIED
2. NOT SATISFIED
3. IN-BETWEEN
8. DON'T KNOW
9. REFUSED

SANBAG2b: the shopping in your community?

1. SATISFIED
2. NOT SATISFIED
3. IN-BETWEEN
8. DON'T KNOW

SANBAG3b: the entertainment and recreational opportunities?

1. SATISFIED [SKIP TO SANBAG4B]
2. NOT SATISFIED
3. IN-BETWEEN
8. DON'T KNOW
9. REFUSED [SKIP TO SANBAG4B]

SANBAG3c: [ASK ONLY IF THEY ARE NOT SATISFIED OR IN-BETWEEN]

Can you tell me what makes you say that?

SANBAG4b: the cleanliness of the environment?

1. SATISFIED
2. NOT SATISFIED
3. IN-BETWEEN
8. DON'T KNOW
9. REFUSED

SANBAG5b: the air quality?

1. SATISFIED
2. NOT SATISFIED
3. IN-BETWEEN
8. DON'T KNOW
9. REFUSED

SANBAG6b: the safety and security of the community?

1. SATISFIED
2. NOT SATISFIED
3. IN-BETWEEN
8. DON'T KNOW
9. REFUSED

SANBAG7b: the availability of affordable housing?

1. SATISFIED
2. NOT SATISFIED
3. IN-BETWEEN
4. NEVER HAD TO SEE IF IT IS AVAILABLE
8. DON'T KNOW
9. REFUSED

SANBAG8b: the availability of good jobs in your community?

1. SATISFIED
2. NOT SATISFIED
3. IN-BETWEEN
4. HAVEN'T LOOKED FOR A JOB, SO I DON'T KNOW
5. I WORK OUTSIDE MY COMMUNITY, SO I DON'T KNOW
8. DON'T KNOW
9. REFUSED

SANBAG9b: your ability to go where you want safely by walking or biking?

1. GENERALLY SATISFIED
2. NOT SATISFIED
3. IN-BETWEEN
4. I, MYSELF, DON'T WALK OR BIKE, SO I DON'T KNOW
8. DON'T KNOW
9. REFUSED

SANBAG10: Now imagine for a moment that you are moving to another community. Which type of community would you prefer to live in? Would you prefer....

OPTION A, [which is] a community which has a mix of homes on smaller lots, townhouses, and apartments, with shopping, recreation and businesses that are easy to *walk to*...

OR

OPTION B, a community which has homes on *larger lots*, and where you *drive to* shopping, recreation and businesses?

1. OPTION A
2. OPTION B
3. NO PREFERENCE/DOESN'T MATTER
8. DON'T KNOW
9. REFUSED

INTERVIEWER: STRESS THE WORDS "OPTION C", THEN PAUSE A MOMENT. DO THE SAME WHEN YOU SAY "OR OPTION D." SPEAK VERY CLEARLY ON THIS ONE SO THAT YOU DON'T HAVE TO READ IT TWICE!

SANBAG11: [ASK ONLY IF THEY COMMUTE – THAT IS, IF B26 > 0] And which of the following options would you prefer?

OPTION C: A community where the homes are built on *smaller lots* and the commute time to work would be *20 minutes or less*

OR

OPTION D: A community where the homes are built on *larger lots* and the commute time to work would be *40 minutes or more*

1. OPTION C
2. OPTION D
3. NO PREFERENCE/DOESN'T MATTER
4. I PREFER LIVING IN AN APARTMENT/TOWNHOUSE
8. DON'T KNOW
9. REFUSED

SANBAG12: Given that there is a limited amount of money in the budget to fund transportation, is it more important for the government to make transportation improvements, such as more commuter rail service, express buses, bike lanes, or expanding freeways to help reduce congestion, OR should they spend money on maintaining the local roads we already have?

1. IMPROVEMENTS TO REDUCE TRAFFIC
2. MAINTAINING THE LOCAL ROADS WE HAVE
3. I WANT BOTH
8. DON'T KNOW
9. REFUSED

TRANSCSUSB: Now I have some questions about a college education.

CSUSB1: For the next two questions, I'd like you to tell me if you strongly agree, agree, disagree, or strongly disagree.

First: You can get a better job if you get a college degree.

1. STRONGLY AGREE
2. AGREE
3. DISAGREE
4. STRONGLY DISAGREE
8. DON'T KNOW
9. REFUSED

CSUSB2: Next, A person is more likely to be successful in the workplace if he or she has a college degree.

1. STRONGLY AGREE
2. AGREE
