

I-10/TIPPECANOE INTERCHANGE IMPROVEMENT PROJECT

PHASE II

The San Bernardino Associated Governments (SANBAG), and its partner agencies, has designed major improvements to the Interstate 10 (I-10) and Tippecanoe Avenue interchange. The project traverses the cities of San Bernardino and Loma Linda. The magnitude and complexity of the project warrants the project to be built in two phases. The Phase I construction was completed in the fall 2014. Phase II is expected to begin construction in February 2015. The project was initiated to improve access to key destinations including Loma Linda University Medical Center and local businesses, relieve traffic congestion, reduce impacts to local property owners and residents, and to build a sound project that is fiscally responsible.

COSTS AND FUNDING SOURCES

Funds were secured to design, construct the interchange and provide local street improvements for both phases of the project. The total project cost is \$70.5 million.

Phase II construction costs are estimated at \$16.8 million and are made up of the following funding sources:

- Federal funds..... \$2.7 million
- State funds..... \$10.0 million
- Local funds..... \$4.1 million

PROJECT SCHEDULE

- | | |
|---|----------------------|
| • Project Approval and Environmental Document | January 2012 |
| • Phrases Identified | April 2012 |
| • Corridor Mobility Improvement Act (CMIA) Award | April 2012 |
| • Plans Approved | July 2014 |
| • Construction Contract Award | November 2014 |
| • Start of Construction | February 2015 |
| • Anticipated Construction Completion | February 2016 |
| • Anticipated Project Completion
(Plant Establishment/Landscaping) | February 2017 |
